A REVENGEFUL CONVICT

Tries to Kill a Girl Who Had Been a Witness Against Him.

CHICAGO, October 28.—A year ago Miss Alice Oakes, who resides with her parents on Wabash avenue, testified against James Frenell on a charge of burglary, and upon her testimony he was given a year in the penitentiary. He threatened to get even with the girl when he got out.

When released a few days ago he started tonight to carry his threat into execution. He lay in wait near the girl's house, and as she appeared darted out, brandishing a long knife. The girl ran down street screaming, closely followed by the would-be murderer. He would undoubtedly have succeeded in his revengeful design but for the timely appearance of two policemen who captured Frenell and locked him up.

DROWNED THROUGH DRINK.

An Old Man Found Dead on an Island in Columbia River.

PORTLAND, Or., October 28.—Charles C. Miller, aged 63, was found dead on Coon Island in the Columbia River yesterday. The body was found lying partially covered with sand, perhaps five feet from the water's edge. His boat was also on the beach. In it were two demijohns of liquor and on the beach an empty demijohn was found.

The supposition was that Miller drank too freely of the liquor and, falling near the water's edge, was drowned by the high tide. The body was brought here today and the coroner held an inquest. The jury rendered a verdict of accidental drowning.

Siberian Convicts Escape.

ST. PETERSBURG, October 28.—Advices from Yakutsk, Siberia, report that while transporting Siberian convicts on board a steamer on the river Lena, the inhabitants of a village which the steamer was passing, came to the convicts' assistance and helped them disarm and bind the guards of the escort. The vessel was then set adrift. The governor of the province sent troops in pursuit, who killed two fugitives and recaptured five.

Petitioning for the Pope.

MADRID, October 28.—Thirty-two bishops, who assisted in the recent Catholic Congress at Saragosa, have sent a petition to the Queen of Spain, asking her to interfere in the unjust treatment of the Pope.

Killed by Indians.

SPOKANE FALLS, Wash., October 28.—Advices from Wilber, Big Ben county, report the murder of S. S. Cole, a freighter, by Colville Indians. The citizens will demand the surrender of the criminals from the agency.

Did it With a Razor.

ATLANTA, Ga., October 28.—In Gwynette county, yesterday, Fannie Chambers, a negress, after quarreling with Pierce Wright, her lover, cut off his head with a razor.

THE MARKETS.

NEW YORK, October 28.—There was very little doing in the stock market today outside of a few leaders, but transactions in them, while not as large as usual of late, rolled up a respectable volume of business, at almost steadily declining prices. Sugar was again a leader, and it was hammered down 4 per cent at the lowest point and served to give a depressing tendency to the general list. The street was full of the story that the Union Pacific was the aggressor in the new difficulty in the West and the stock was knocked off 2½ per cent. None of the active shares displayed a recuperative power, and final prices in all are close to the lowest of the day. Sugar is down 4½¢.

The following were the closing quotations:

HOFF, of TUCSON!

BELOW IS A CUT OF THE TERRITORIAL RENOWNED CHARLES F. HOFF, COMMONLY known as HOFF, of TUCSON. Mr. Hoff is Manufacturer's Agent and Merchandise Broker, with headquarters at Tucson. He is the gentleman that has adjusted the windmill question so much, the results of which are being seen all over the Territory, and which is turning the barren deserts into blooming gardens.

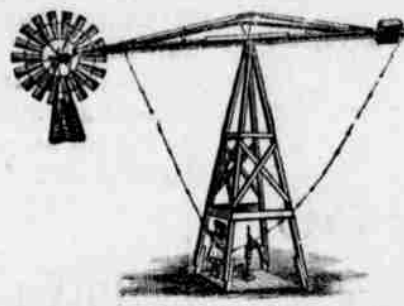

THE AERMOTOR WINDMILL

Shows an increase of 35 per cent in power over all other mills. The wheel is entirely of STEEL; Sun, Rain or Storm therefore have no effect on the same.

It is sold with or without TILTING TOWERS. FIXED TOWERS are the cheapest, but the TILTING TOWER is the most convenient; same brings the wheel down to the ground for oiling. Think of it: the wheel comes down to you.

The AERMOTOR has from 4 to 16 inch strokes. Three revolutions of the wheel to one stroke of the pump allows it to start up easier under a heavy load, and runs when other wheels are idle, not being "quite" sufficient wind to run other mills. The wheel itself being so LIGHT, runs so much faster when started; and thus gains more in speed than it loses in the stroke. But these are only a few reasons why the AERMOTOR is superior in Power, Construction and Durability to all other wind-mills. However, so far as the power of the wheel is concerned, the greatest

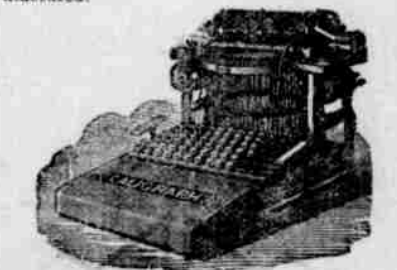

gain in power is due to the structure of the wheel itself. To specify ALL the reasons for this would be too tedious. Suffice it to say that this claim is based on numerous dynamometric tests on more than sixty different wheels, and that the AERMOTOR has been submitted to long and applied practical tests, in conjunction with the leading wind-motors of the country, and it has been proven by actual trial and measurement that the 8-foot Steel AERMOTOR will pump more water in the same time, in any kind of wind, and will do the same work in lighter wind than the best of 10-foot wooden wheels made. The AERMOTOR WIND ENGINE, without exaggeration, is the greatest invention of the nineteenth century, and every home in Arizona should have one, as a home without a windmill is like a library without books, a home without a soul.

CHARLES F. HOFF, Agent, Tucson, Arizona.
